U.S. ARMY CHEMICAL MATERIALS AGENCY PUBLIC SERVICE ANNOUNCEMENT

Did you know? Johnston Atoll, located about 825 miles southwest of Hawaii, was home to more than six percent of the nation's originally declared stockpile of chemical weapons. Those weapons are now gone. Environmental cleanup of the site continues. Is there anything left?

Public Session Invitation

Learn how the U.S. Army and the U.S. Environmental Protection Agency, is ensuring that Johnston Atoll is environmentally sound and that past issues and actions have no affect on the future long-term health of fish, wildlife, and the environment.

Join us on Tuesday, Sept. 21 between 6 p.m. and 9 p.m. in the cafeteria at the Prince David Kawananaoka Middle School located at 49 Funchal Street in Honolulu. View booths and displays, meet subject matter experts, have your questions answered and review materials related to weapons destruction and environmental issues.

For more information, call 1-800-488-0648.
